

# Corporate Overview

## Results Driven. Government Focused.

A Service-Disabled Veteran Owned Small Business (SDVOSB) founded in 2005, Summit Technologies provides industry leading professional support services to the Federal Government and the commercial marketplace in the areas of Cybersecurity, Governance, Risk, and Compliance, Business Transformation, and Business Intelligence and Analytics.

We strive to meet and exceed your organizational goals and objectives, and we do that by implementing standardized, repeatable best practices in support of your mission. Our clients count on us to assess and mitigate risks, offer recommendations on meeting compliance requirements, and improve existing business processes. When you partner with Summit, your organization benefits from our experience and the desire to successfully support your strategic objectives. Our purpose is to optimize performance, reduce costs and turn knowledge into value for the benefit of our clients.

## Current and Recent Customers

- U.S. Department of Homeland Security
- Federal Communications Commission

# Cybersecurity

## Key Capabilities and Customers

### U.S. Department of Homeland Security

Our first contract opportunity was in support of U.S. Citizenship and Immigration Services (USCIS) providing FISMA Compliance services. Since then, we have provided similar services in support of U.S. Customs and Border Protection (CBP) and the Federal Emergency Management Agency (FEMA). The scope of services provided across these DHS agencies include the following:

- Authorization to Operate (ATO) packages
- IT Risk Assessments
- Continuity of Operations Plans (COOP)
- Systems, Test & Evaluation
- Cybersecurity Briefings
- ISSO and Certification Agent services
- Cybersecurity Engineering

### Federal Communications Commission

Supported the FCC with the migration of system data from an on-premise server environment to a 99% cloud-based one. Performed security evaluations of commercial SaaS solutions, conducted vulnerability scanning of FCC servers, performed Security Assessment and Authorization of FCC systems and developed cyber security briefings identifying the impact of vulnerabilities to Agency operations. Support includes:

- Policy and Strategy Analysis Services
- Assessment and Authorization (A&A) Services
- Systems, Test and Evaluation (STE) Services
- Scanning and Continuous Monitoring Services
- System Reporting
- Standard Operating Procedure and Policy directive development
- Cybersecurity Awareness Training

# Governance, Risk and Compliance

## Key Capabilities and Customers

- Capability Gap Analysis
- Strategic Planning
- Audits
- Business Case Analysis
- Return on Investment/ Total Cost of Ownership
- IT Process Mapping and Alignment
- Risk Management
- Program Management Office Support
- Enterprise Architecture

## Current and Recent Customers

- Defense Logistics Agency

# Governance, Risk and Compliance

## Key Capabilities and Customers

### Defense Logistics Agency, J6 Information Operations

Delivered program management support services to strengthen the internal controls of DLA J6 information technology processes with the purpose being to enhance the audit readiness of the Agency in compliance with the Office of the Secretary of Defense (OSD) Mandate for Financial Improvement and Audit Readiness (FIAR). Support includes:

- Program Management Support
- Business Process Reengineering
- IT Audit Liaison Support
- Business Case Analysis
- Strategic Planning
- Training
- Gap Analysis
- Administrative Support

### Defense Logistics Agency, J8 Office of Financial Operations

Working in coordination with our prime, KPMG LLP, Summit provided support to DLA in achieving its financial statement audit readiness objectives through improved business operations stewardship. We evaluated the internal controls supporting the end-to-end business cycle processes and systems which are the foundation for the data reflected in the financial statements and the basis for sustainable audit readiness. Support includes:

- Establishing Long-term Evidential Matter (EM) Requirements for Audit Readiness, Business Cycle Team, and Field Command (FC) Teams.
- Establishing a Concept of Operations
- Planning and scoping the Quality Assurance and Assertion Criteria team (QA) function
- Training
- Development of an Audit Response and Infrastructure (AI) Team

# Business Transformation

## Key Capabilities and Customers

- Business Process Reengineering
- IT Performance Measurement
- Analysis of Alternatives
- Strategic Communications
- Policy & Procedural Development
- Organizational Change Management
- Program Management Support
- Capability Gap Analysis
- Performance Metrics Development
- IT Benchmarking

## Current and Recent Customers

- U.S. Department of Veterans Affairs
- U.S. Department of Energy

# Business Transformation

## Key Capabilities and Customers

### U.S. Department of Veterans Affairs

Summit provides program management office support to the VA Center for Enterprise Human Resources Information Services (CEHRIS), a human capital organization responsible for the lifecycle sustainment of the Department's human resource information systems and tools. Support includes:

- Business Process Reengineering
- HR Analytics and Business Intelligence
- Organizational Change Management
- Strategic Planning
- Enterprise Communications
- IT Governance
- System Testing and Evaluation
- Event Planning
- Administrative Support

### U.S. Department of Energy

This multiple award Blanket Purchase Agreement provides management consulting support, acquisition support, program/project management support, operational/administrative business support, and environmental consulting support for the Hanford Site located in Richland, WA. Summit was awarded a task order supporting the Department's National Transuranic Waste Management cleanup and compliance program and a second task order supporting the Department's human resource staffing requirements. Support includes:

- Ensuring compliance with Federal mandates for radioactive waste disposal
- Providing technical oversight and support to prevent programmatic failure
- Providing professional HR assistance and support for the recruitment of candidates

# Business Intelligence and Analytics

## Key Capabilities and Customers

- Data Collection and Analysis
- Data Preparation and Cleansing
- Data Visualization
- Data Quality
- Analytics and Insights
- Data Warehousing
- Data Lineage Tracking
- Data Reporting
- API
- Cloud Deployments

## Current and Recent Customers

- U.S. Department of Veterans Affairs
- Office of Management and Budget

# Business Intelligence and Analytics

## Key Capabilities and Customers

### U.S. Department of Veterans Affairs

Summit developed executive dashboards using Power BI for the VA Center for Enterprise Human Resources Information Services (CEHRIS). Our dashboards provided VA leadership with insight on employee onboarding trends, time to hire, employee demographics, vacancies, ascensions and separations across the Department with drill down capability by Administration, Region/VISN, and/or by Station. We also supported the VA with the integration of a human capital data warehouse that takes data from several disparate HR systems for ingest into a single data repository for analysis and reporting.

### Office of Management and Budget

Summit developed analytical models for OMB's Human Capital Data Management and Modernization Directorate to inform leadership of Government-wide human capital trends such as time to hire, common reasons for turnover, and assessing employee engagement. We reviewed and analyzed statistical data and provided reports on historical trends and future projections regarding employee turnover, required skills, and skill gaps. Summit provided updates to the OMB Human Capital Dashboard which was used to report the status of agency-wide human capital trends across the Agency.
